ABOUT

MOOD
SUPRIM

Mood Suprim is a trio exploring the meeting point of ancient mysticism and contemporary sound.

Drawing from Sufi poetry and electronic minimalism, their music evokes both inner reflection and collective energy.

With roots in Middle Eastern traditions and Nordic atmospheres, Mood Suprim creates immersive performances where sacred meets modern — a sound that is both spiritual and cinematic.

The band's performances are journeys rather than concerts, inviting audiences into a shared trance of rhythm, voice, and silence
